SUBSTITUTE SEQUENCE LISTING STATEMENT

Commissioner for Patents
P O Box 1450
Alexandria, VA 22313-1450

Sir:

A Substitute Sequence Listing is being submitted herewith in paper and in computer readable form on diskette. The diskette is IBM/PC compatible and contains a single file, "1037C5 SEQLIST.TXT", the size of which is 625 KB, and was created on August 25, 2004 in MS-Windows 2000 format, pursuant to 37 CFR 1.821(f).

The undersigned verifies that, to the best of her knowledge after making a comparison, the content of the accompanying paper substitute sequence listing and computer readable form (CRF) substitute sequence listing on diskette are the same, and further that the sequences shown in the accompanying substitute sequence are the same as those provided in the original sequence listing filed on July 3, 2003 and in Figure 10 of the originally filed application. The sequence listing has been amended to conform the species designation for SEQ ID NO: 4 and 8 to that

provided in the originally filed specification and to conform the sequence of SEQ ID NO: 8 to the sequence of originally filed Figure 10 of the application. It is urged that none of these amendments constitute new matter.

Respectfully submitted,

Janet Sleath
